CERTIFICATES

- Developing Front-End Apps with React 
- Introduction to Web Development with HTML, CSS, JavaScript 
- Django Application Development with SQL and Databases 

INTERNSHIPS

Defence Research and Development Organisation, Front-End Developer 
As a Front-End Web Developer, I developed and integrated user interfaces for an Inertial Navigation System (INS), enhanced site functionality by resolving UI/UX issues and implementing user-centered design improvements, and ensured smooth performance through regular front-end optimization and maintenance.

July 2023 –
December 2023
Hyderabad, India

Dehlivery, Android Developer 
Contributed to feature development, UI optimization, and codebase modernization using Kotlin. Improved app performance and maintainability by implementing clean, efficient code and supporting SDK integrations. Collaborated cross-functionally using tools like Git, Postman, and Azure Boards, while ensuring timely delivery through agile development practices. Adapted quickly to changing requirements and consistently delivered user-focused enhancements.

January 2025 –
May 2025
Gurugaon, India
